### TeeJet Orifice Chart

**MATERIAL:** Stainless Steel

**TeeJet Orifice Chart**

To determine the orifice plate you need, use the following equations:

\[
GPM = \frac{GPA \times MPH \times W}{5940}
\]

\[
GPM = \frac{5940 \times GPA}{MPH \times W}
\]

#### GPM

<table>
<thead>

</table>

**Note:** Always double check your application rates. Tabulations are based on spraying water at 70°F (21°C).

**MATERIAL:** Stainless Steel

**W = Nozzle spacing (in inches) for broadcast spraying**

**W = Row spacing (in inches) divided by the number of nozzles for directed spraying.**

**W = Spray width (in inches) for single nozzle, band spraying or boomless spraying.**

These sizes are stocked at Alpine in New Hamburg, ON.

**NOTE:** Always double check your application rates. Tabulations are based on spraying water at 70°F (21°C).
